TIERRE PANTERA REVERS FLAIL MOWER

Professional Mower for Intensive Use

The Tierre Pantera Reverse flail mower is a versatile and robust machine designed specifically for professional use in agriculture, green space management and municipal applications. Thanks to its reversible design, this mower is suitable for both front and rear mounting, ensuring maximum flexibility and efficiency. Whether it is grass, crop residues or prunings up to 10 cm thick, the Pantera Reverse delivers excellent performance even in tough conditions.

This front flail mower is very often used in the green manure industry, where it helps to efficiently cut and process crops for better soil quality. Its high working speed and strong construction make the Tierre Pantera Reverse an ideal choice for farmers and contractors actively engaged in sustainable farming practices.
