DONDI DMR (MONO-ROTOR) TRENCH CUTTER

Dondi DMR Trench Router - Efficient Solution for Small Trenches and Drainage

The Dondi DMR trench tiller is a high-quality, mono-wheel central trencher specially designed for digging small trenches with a maximum depth of 35 to 78 cm and a wall angle of 30°. The excavated soil is spread only on the right side of the trench, ensuring efficient and controlled soil drainage.

This machine is ideal for creating temporary drainage ditches for surface water drainage or for creating small irrigation channels.

DMR 20: €4,840.00

DMR 25: €6,025.00

DMR 35: €6,025.00

DMR 45: €10,125.00

DMR 55: €10,300.00

DMR25 NLF-28°: €5,785.00
