PRONAR T024M BALE WAGON

The Pronar T024 flat wagon is very suitable for transporting cargo volumes, such as straw, hay or pallets. The flat trolley is very reliable and universal in use.

The low bed construction with flat edges facilitates loading and protects the film of the wrapped bales from damage.

The height of the front and rear rack makes it possible to load two layers of bales. The width of the loading platform is adapted to transport europallets.

The trailer is equipped with tandem suspension which ensures easy manoeuvrability on the roughest and most demanding terrains.

€17,700.00

Specifications

DIMENSIONS

Height of loading platform from ground	1110
Loading platform height	1680
Loading platform length	7170
Loading platform width	2435
Overall height	2750
Overall width	2500
Soil thickness	3
Total length	9290
Track width	1750

OTHER

Maximum speed	40
Required tractor power	62

TECHNICAL SPECIFICATIONS

Loading capacity	17.4
