BC450250 POWERBANK

POWERBANK BC400250 - Reliable power in compact container

The BC400250250 is a powerful and versatile battery container with a storage capacity of 400 kWh and a continuous output of 250 kW. This unit is designed for temporary or permanent power supply in locations where reliability and flexibility are essential - think construction sites, events, grid reinforcement or solar energy storage.

Key specifications:

- Storage capacity: 400 kWh
- Rated output: 250 kW
- Battery type: LFP ($LiFePO_4$)
- Lifespan: 6000 cycles (90% DoD)
- Rated voltage: 400 V AC
- Frequency: 50 Hz

With a safe LFP ($LiFePO_4$) battery system, advanced cooling and fire protection and a high-performance Sinexcel inverter, the BC450250 is built for intensive use under a variety of conditions.
