BC1000500 POWERBANK

POWERBANK BC1000500 - Large-scale industrial energy storage

The BC1000500 is a robust battery container with an impressive storage capacity of 1000 kWh and a continuous output of 500 kW. This unit is ideally suited for large-scale applications such as grid support, peak shaving, renewable energy storage and temporary power supply at industrial sites or solar parks.

Key specifications:

- Storage capacity: 1000 kWh
- Rated capacity: 500 kW
- Battery type: LFP (LiFePO₄)
- Lifespan: 6000 cycles (90% DoD)
- Rated voltage: 400 V AC
- Frequency: 50 Hz

With a safe LFP (LiFePO₄) battery system, advanced cooling and fire protection and a high-performance Sinexcel inverter, the BC1000500 is designed for continuous operation under demanding conditions. This unit offers maximum reliability and capacity in one compact solution.
